

# Richmond Community Concert Band COVID-19 Vaccination Policy

The COVID-19 pandemic continues to pose a significant risk both to individuals and to BC's health-care system. Because research shows that playing wind and other instruments in close proximity to one another can help spread the virus, the Richmond Community Concert Band's Board of Directors is implementing the following vaccination policy.

We keenly feel our responsibility to help keep our Band and audience members, our families, and our other contacts as safe as possible. **We therefore require that by everyone receive two doses of COVID-19 vaccine at least two weeks before attending a Richmond Community Concert Band rehearsal, concert, or other face-to-face event.** This will provide our members with the comfort of knowing they can join us for an enjoyable activity in relative safety.

*As per Provincial Health Regulations, the vaccine requirement will be phased in such that only one dose will be required upon start of rehearsals on Sept. 13, 2021, but two doses will be required by October 24.*

**If you don't return your completed form to us, we will ask you to temporarily suspend your participation in our face-to-face events.**
